

## LatentView Analytics sets IPO price band at Rs. 190-197 per share

**MUMBAI:** LatentView Analytics Ltd, a global digital analytics firm, on Wednesday set the price band for its initial public offering (IPO) at Rs. 190 to Rs. 197 per share. The IPO will open on 9 November and close on 11 November, with shares expected to start trading on 22 November. The IPO consists of a fresh issue of Rs. 474 crore and an offer for sale of up to Rs. 126 crore by its existing shareholder and promoters. The OFS comprises up to Rs. 60.15 crore by Aduagudi Viswanathan Venkatraman, up to Rs. 23.52 crore by Gopinath Koteswaran, up

to Rs. 35 crore by Ramesh Hariharan, up to Rs. 3.87 crore by Subramanian Ramachandran, up to Rs. 1.19 crore by Divya Balakrishnan, up to Rs. 1.15 crore by Rajkumar Kaliyaperumal, up to Rs. 73.50 lakh by Priya Balakrishnan. Axis Capital, ICICI Securities and Haitong Securities India are the lead managers to the issue. The proceeds from issue worth Rs. 147.90 crore will be used for funding inorganic growth initiatives; Rs. 82.40 crore will be used for funding working capital requirements of its material arm LatentView Analytics

Corp and Rs. 130 crore for investment in its arm to augment its capital base for future growth. The firm is among the leading pure-play data analytics companies in India and has emerged as one of the most trusted partners to several Fortune 500 companies in recent years. It provides services primarily to companies in Technology, CPG and Retail, Industrials, and BFSI industries. It has a diversified client base of 45 active clients worldwide that it served in Fiscal 2021, including 21 of the Fortune 500, three of the Fortune 1000.

## Lacklustre performance by ARCs: RBI Committee

**Mumbai,** Multiple factors have led to sub-optimal performance of the asset reconstruction companies (ARCs) in the country, said the Reserve Bank of India (RBI) Committee. The ARC framework was designed to allow originators to focus on their core function of lending, by removing sticky stressed financial assets from their books. It was also designed to help borrowers revive their businesses, which protects the viable and productive assets of the economy and often ensures a better

return to banks and financial institutions (FIs). Accordingly, the Committee constituted to "Review the working of ARCs said multiple factors behind the sub-optimal performance of the sector such as vintage NPAs being passed on to ARCs, lack of debt aggregation, non-availability of additional funding for stressed borrowers, difficulty in raising of funds by the ARCs on their balance sheet, among others." "Also, ARCs have lacked focus on both recovery and acquiring necessary skill sets for holistic resolution of distressed borrowers."

The RBI Committee cited data which showed that the performance of the ARCs has been lacklustre, both in terms of ensuring recovery and revival of businesses. "Banks and other investors could recover only about 14.29 per cent of the amount owed by borrowers in respect of stressed assets sold to ARCs during the FY 2004-2013 period." "Similarly, data shows that approximately 80 per cent of

## Business Brief

### US crude oil inventories up last week

**Houston,** The American Petroleum Institute (API) has reported an increase of 3.594 million barrels of crude oil in US inventories for the week ending October 29. Analysts on Tuesday had expected an increase of about 1.567 million barrels for the week.

The API reported a surge of 2.318 million barrels in the previous week, Xinhua news agency reported. Oil prices ended mixed on Tuesday as traders are awaiting US fuel stocks data and a key meeting of the Organization of the Petroleum Exporting Countries and its allies, collectively known as OPEC+. The West Texas Intermediate for December delivery lost 14 cents to settle at 83.915 US a barrel on the New York Mercantile Exchange. Brent crude for January delivery increased 1 cent to close at 84.72 \$ a barrel on the London ICE Futures Exchange.

### Diwali Relief: Petrol, diesel prices remain static

**New Delhi,** As a Diwali relief, fuel consumers were spared as oil marketing companies decided to keep the retail price of petrol and diesel unchanged on Wednesday in line with slight softening of global oil rates that is expecting OPEC to pump more oil this month.

Accordingly, the pump price of petrol in Delhi remains at Rs 110.04 a litre, while diesel prices also remained at Tuesday's level of Rs 98.42 a litre, according to a price notification of state-owned fuel retailers. In the financial capital Mumbai, petrol prices remain at Rs 115.85 per litre, while diesel is at Rs 106.62 a litre, the highest among all metros.

Before Wednesday's pause, fuel prices increased for seven consecutive days to take up the rate of petrol by Rs 2.45 per litre in Delhi. Similarly, diesel prices also increased by Rs 2.10 a litre. Across the country as well, the fuel prices remained static on Wednesday but their retail rates varied depending on the level of local taxes on petroleum products. Diesel prices have increased on 30 out of the last 40 days taking up its retail price by Rs 9.90 per litre in Delhi.

### BSES Rajdhani, Havells India partner to train electricians on consumer safety

**New Delhi,** BSES Rajdhani Power Limited (BRPL) and Havells India Limited (HIL), a leading Fast-Moving Electrical Goods (FMEG) and a consumer durables company, have signed a Memorandum of Understanding (MoU) whereby an electrician training program to promote electrical safety is being undertaken.

As part of the initiative, a unique training program is being launched for electricians, including those nominated by RWAs in South and West Delhi. Being an industry partner of the National Skill Development Council (NSDC), Havells India Limited is conducting training and assessment for electricians enabling them to be equipped with latest advancements in the field of electrical safety and automation. The first batch of the program with 37 Nominated electricians was formally inaugurated on Tuesday by BRPL CEO Rajesh Bansal and Havells India Senior Vice President, Vivek Yadav.

## IndianOil to set up India's first mega-scale maleic anhydride plant

**New Delhi,** IndianOil Board has greenlighted the setting up of India's first mega-scale maleic anhydride plant, to manufacture value-added chemical products, at its Panipat Refinery and Petroleum Complex (PRPC).

The project with a capex of Rs 3,681 crore will be commissioned in 54 months from stage 1 investment approval.

The project is proposed to have a capacity of 120 KTA (kilo tonnes per annum) of maleic anhydride (MAH) that is used to make speci-

ality products like polyester resins and surface coatings, plasticisers, agrochemicals, and lubricant additives. The plant will also manufacture 20 KTA of 1,4-butanediol (BDO) that finds applications in polyurethanes, polybutylene terephthalates (PBT) - an engineering grade plastic and biodegradable fibres.

Another value-added chemical, tetra hydro duran (THF), will also be produced from this plant to accelerate the growth of the pharmaceutical industry. THF is also widely used in adhesives

and vinyl films. On the newly approved project, IndianOil Chairman S.M. Vaidya said: "Presently, these high demand chemicals are mostly imported by India.

The upcoming MAH Plant will reduce import dependence and save foreign exchange of about \$150 million per year, thus strengthening the mission of Aatmanirbhar Bharat. Moreover, petrochemicals integration is the cornerstone of our future growth strategy, given the high potential of petrochemicals in India.

"This project will consolidate IndianOil's basket of niche products and increase the Lube and Petrochemical Integrity Index of Panipat Refinery to more than 15 per cent after the refinery expansion plan is implemented." The ongoing

expansion of the Panipat Refinery (envisaging capacity expansion of the refinery from 15 MMTPA to 25 MMTPA) and the implementation of petrochemical and other specialised units will make this refinery one of the most advanced and integrated refinery and petrochemical complexes in Asia, with a complexity index of over 15. The expansion blueprint includes units like indmax for deriving maximum value from the petrochemical molecule, polypropylene unit and a lube complex for producing lube oil base stock apart from other refinery units. The existing olefinic and aromatic complex shall also be expanded along with the implementation of grass-root speciality petrochemical units like the styrene unit and the just-approved MAH Unit.

**GUJARAT WATER RESOURCES DEVELOPMENT CORPORATION LTD.**  
On line tender notice no. 17 / 2021-22
